

Stress free wedding day

By Hayley and Daniel,

My husband and I got married at the Holiday Inn Fareham in September 2017 and the day was perfect. From start to finish the customer service we received was exceptional, emails were responded to within hours and we had constant contact with our wedding coordinator. The staff on the day were amazing with the catering manager actually coming in and working on his week off to make sure that our day ran smoothly. The whole planning process was stress free and we were guided it through it by the wedding coordinator. The food was amazing and all of our guests had a fantastic stay at the hotel. We could not fault a single thing about the hotel and would recommend it to any couple looking for a stress free wedding day.
